Dear Madam/Sir,

enclosed find detailed **pricelist** for our *Aqua Line Underwater treadmill* based on following specification, scope of service and conditions:**1.0 Underwater treadmill basic system****Construction Bassin/Container (V2A)**

- Corrosion protected Bassin complete on stainless steel 1.4301 (V2A) in frame construction
- Length inside measurement 410 cm; outside measurement 420 cm
- With inside measurement level treadmill 96 cm; outside measurement 140 cm inclusive Frameconstruction
- Height sidewall from level treadmill 160 cm; total height 210 cm.
- Weight 1.800 Kg
- Removable service claps
- Frontdoor and backdoor with integrated rubber padding, central mechanical closing system 3 closer simultaneously adjustable „one hand closing System“
- User walkway length 400 cm width 80 cm
- Corrosions protected groundtable in stainless steel (V2A), roller diameter 365 cm, distance aisle 352 cm
- Groundtable covered with special 2 cm in PE-Teflon material for shock absorption. Treadmill unit complete removable from frontside of basic construction with special rubber belt for underwater running use.
- Change of rubber belt or maintenance work from side without removing any construction parts.
- Combined main electric engine gear 5,5 KW, 400V
- Construction designed for maximum speed of 18 Km/h

Price basic system**52.500,00 €****2.0 Pump technology**

- Pumpstation waterfilling and discharging with high speed centrifugal pump 4,5 KW, 60.000 l/h
- Automatic stop on adjustable waterlevel and water pressure indicator
- Valve unit with 2 electric valves fixed on ground plate
- Connecting pipes from watertank to pumpstation is to be guaranteed at architectural environment.
- Connecting pipes from Aquatrainer to pumpstation must be guaranteed at architectural environment
- Detailed drawing for Installation will be delivered
- Pumpstation as “bloc-system” unit

Price pump system**3.950,00 €****3.0 Massage unit**

Massageunit with 12 massage jet booster adjustable at area frontlegs and backlegs with air jet noozles.

Price massage unit**3.550,00 €**

4.0 Water tanks

- Watertank on capacity of appr. Each 4.000 l on special dimensions as battery tank each.
- Minimum 2 tanks each 4.000 l
- material polyester

Price basic battery tank 2 x 4.000 l	3.950,00 €
Extension tank per 4.000 l	1.950,00 €

5.0 Waste filtration system box filter

- waste filtration box height 80 cm, width 100 cm, length 120 cm with filter netmask 0,25 mm²
- waste collecting rinse

Price basic waste filtration box	1.950,00 €
---	-------------------

6.02 Level Filtration box system

- Filtrationbox 2 level netmask in combination with activated coal filter unit Capacity 10 m³ /h
- 2 filtration box height 80 cm, width 100 cm, length 120 cm with rinse for waste drainage
- level 1 = 0,1 mm²
- Level 2 = 0,05 mm²
- circulation pump 2,5 KW with integrated valve system
- For the filtration system recommended a 16.000 l tank capacity

Price disc filtration system	8.750,00 €
-------------------------------------	-------------------

7.0 Water recycling and filtration system

- combined active coal and gravel filtration system capacity 10 m³ /h with backwashing system
- disinfection system UV bacterial removing cap. 8.000 l/h
- circulation pump 0,5 KW

Price recycling filtration system	5.995,00 €
--	-------------------

8.0 Installation package Europe (within EU)

- Transport and Installation of system to location “ready for startup”
- Installation of all tubes and connecting the system with watertechnology
- Installation of all electric lines within the system (excl. The main electric power line of building)
- **Trainee with Dr. Matthias Baumann 3 days at location for startup and introduction**

Price when purchased with water recycling system (no recycl.)	6.950,00 € (4.950,00 €)
--	--------------------------------

All technical details are subject to change with no notice

Terms of delivery and payment, warranty

- **manufacturing time appr. 6 weeks from date of order confirmation and confirmation of initial payment**
- **delivery free on board transport vehicle at manufacturing facilities; Transport and insurance on risk of client when !not! booked the installation package (Freight charges appr. 2.200,00 EUR)**
- **delivery CIF to customers location; Transport and insurance on risk of ACTIVOMED when booked the installation package**
- **Payment terms**
 - 50% of total amount payable on date of order confirmation
 - 40% of total amount payable on day of delivery and ready to ship of system
 - 10% of total amount payable on date of finishing installation
- **warranty**
 - 2 years guarantee on all solid parts

-6 Months guarantee on all movable part

Packages

All packages and components can be add to the basic system after installation

Package I basic system with waste water filtration

The package includes the following items:

- Basic system water treadmill	52.500,00 €
- Pump system	3.950,00 €
- Watertanks cap 8.000 l	3.950,00 €
- Waste filtration system	1.950,00 €
- Installation package small	4.950,00 €
-	-----
- Package price special	67.300,00 €

Package II complete installation with water filtration and recycling

The package includes the following items:

- Basic system water treadmill	52.500,00 €
- Pump system	3.950,00 €
- Watertanks cap. 16.000 l	7.900,00 €
- Waste filtration system	1.950,00 €
- Filtration system	8.750,00 €
- Active coal filtration and recycling	5.995,00 €
- Full installation package	6.950,00 €
-	-----
- Package price special	87.995,00 €

All individual packages are subject to detailed information about the location.

All prices are FOB manufacturing facilities in Germany when not booked installation package

Installation package is to be scheduled seperately
